Kia ora (have good health), Dr. Haiman,

Here in New Zealand we work with Te Whariki - **with under 5's** - this is my line of work - I manage a group of teachers who supervise nannies in homes. We **MUST** work within a bi-cultural framework/curriculum to embrace our beautiful indigenous people (Maori).

Recently there have been terrible stories of primary school children held in time out. I thought it was timely to post an article to our Facebook and to all our families on why time out is not appropriate at this age. A respected teaching colleague forwarded your article, "The Case Against Time Out", and it seems perfect!!!! Thank you, well done -- just what I needed!

Nāku i runga i aku mihi ki a koe (Yours with thanks),
